Appointment confirmed

Yes, I'll take it.

Only Alex gets the opening

Maya's offer expires. Alex receives the next hold.

Maya replies late  Offer expired

Alex accepts in time  Booking confirmed

Temporal keeps the offer moving

Wait

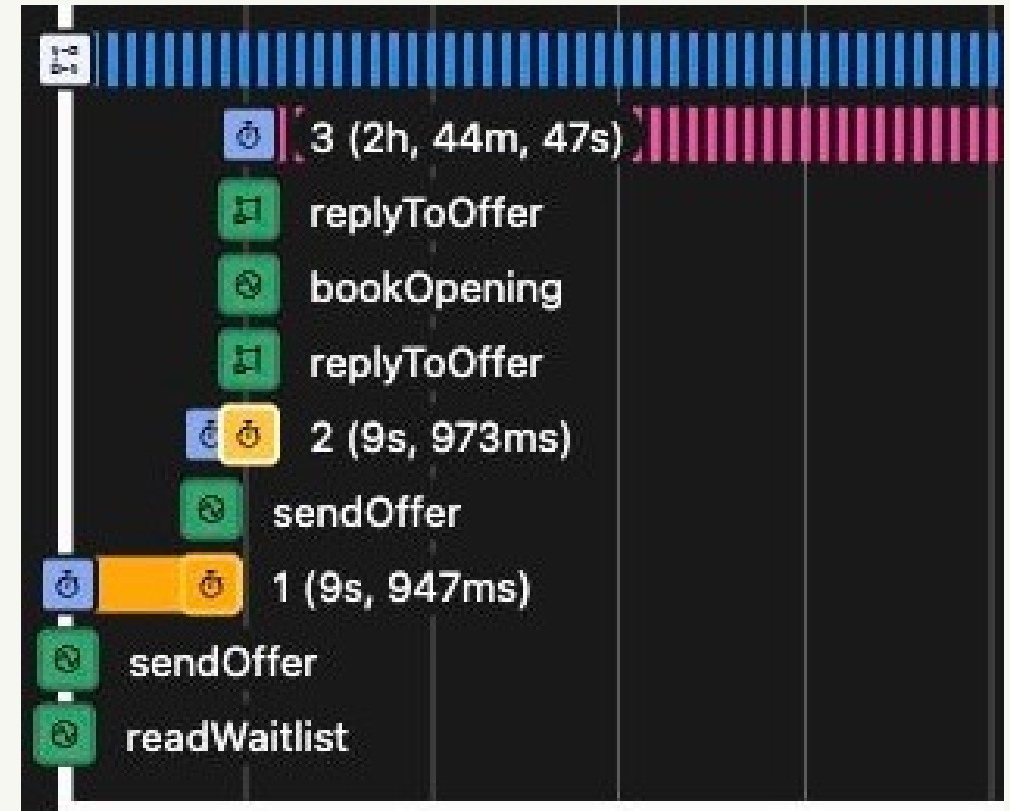

The deadline survives closing the browser.

Resume

The workflow continues after a Worker restart.

Protect

Every reply checks the active offer and deadline.

10-second demo offers. Square, Sheets and SMS are simulated.

A pilot with Lena and Carla

Proposed scope	1 stylist for 1 week, starting with same-day openings.
Before launch	Rehearse late replies, timeouts and an exhausted waitlist. Connect Square and recheck availability before booking. Secure client links. Confirm SMS delivery and costs. Agree on next-day timing and who handles failures.
Measure	Openings filled, time to fill, staff follow-ups and booking conflicts.

No live integrations or measured results yet
