

Filling last-minute openings

A waitlist prototype for Lena and Carla

Today: update Square, scan the sheet, then text clients by hand.

Goal: less follow-up and one clear confirmation.

Maya’s late reply stays in history. Only Alex gets the opening.

Temporal keeps the offer moving

Wait

The deadline survives closing the browser.

Resume

After a Worker restart, the process continues.

Protect

Every reply checks the active offer and deadline.

10-second demo offers. Square, Sheets and SMS are simulated.

A small pilot with Lena and Carla

Proposed scope

1 stylist

1 week

Same-day openings first

Measure openings filled, time to fill, staff follow-ups and booking conflicts.

Before any live bookings

Rehearse late replies, timeouts and an exhausted waitlist together.

Connect Square and recheck availability before booking. Protect client links and confirm SMS delivery and costs.

Agree on next-day response timing and who handles failures.

No live integrations or measured results yet.
